
Timmins Flood Advisory Committee**NEWS RELEASE****FLOOD WARNING EXTENDED– MATTAGAMI RIVER****WATER LEVELS ON THE MATTAGAMI RIVER REMAIN HIGH****Date of Issue—Wednesday, May 10, 2023**

(Timmins, ON)— The Mattagami Region Conservation Authority (MRCA) is extending the Flood Warning for the Mattagami River watershed, specifically the Mattagami River. A Flood Warning message serves as notification to the general public that localized flooding may occur.

The Timmins Flood Advisory Committee reports that water levels on the river continue to remain higher than normal. The exact extent of the flooding is difficult to predict at this time and will depend on the weather in the coming days. Low-lying areas may continue to experience nuisance flooding. Everyone living in or near a flood hazard area is encouraged to monitor the conditions on their property and to take the appropriate actions to protect their property.

The Timmins Flood Advisory Committee will continue monitoring water flows and elevations and will keep the public informed of the situation through further news releases and bulletins.

Residents can visit the MRCA website at www.mattagamiregion.ca for the latest information on watershed conditions and public advisories, or to sign up for flood notifications via email.

This message will be in effect until (or updated before) May 12, 2023.
