

TIMMINS FLOOD ADVISORY COMMITTEE

NEWS RELEASE

**WATERSHED CONDITIONS STATEMENT EXTENDED
FLOOD OUTLOOK: ALL AREAS**

Continued Snow Melt

Date of Issue – Thursday, April 18, 2024

(Timmins, ON)—The Timmins Flood Advisory Committee is advising residents that as a result of the recent precipitation and continued snow melt, water levels on area lakes, rivers and streams remain higher than normal and conditions can change quickly. As a result, the **Watershed Conditions Statement: Flood Outlook** has been extended for all areas.

City residents are once again cautioned against venturing out on lakes, rivers and small streams where slippery stream banks, thin ice, dangerous currents and fast-moving cold water will make all waterways very hazardous. Parents especially, are urged to warn their children of these dangers.

Residents can visit the MRCA website at www.mattagamiregion.ca for the latest information on watershed conditions and public advisories, or to sign up for flood notifications via email.

This message will be in effect until (or updated before) April 24, 2024.
