

**Timmins Flood Advisory Committee**

---

**NEWS RELEASE****FLOOD WARNING-Notice of Cancellation****Date of Issue—Tuesday, June 30, 2020**

(Timmins, ON)—The Timmins Flood Advisory Committee reports that the Flood Warning for Mattagami River has been terminated. Water levels on the Mattagami River continue to drop and minimal precipitation is forecasted for the area.

**WATER CONDITIONS STATEMENT-Water Safety****WATER LEVELS ON PORCUPINE LAKE REMAIN HIGH  
IN RESPONSE TO RECENT RAIN EVENT****Date of Issue—Tuesday, June 30, 2020**

(Timmins, ON)— The Timmins Flood Advisory Committee reports that with the precipitation received last week, the levels of Porcupine Lake and Porcupine River remain high. As a result, there may be a water safety risk associated with Porcupine Lake and Porcupine River. The Committee will continue to monitor the situation on a daily basis and issue updates as more information is made available, or if water conditions change.

Area residents are cautioned against venturing out on lakes, rivers and small streams where water levels are elevated. Higher than normal flows will make these waterways very hazardous. Parents especially, are urged to warn their children of these dangers.

Residents can visit the MRCA website at [www.mattagamiregion.ca](http://www.mattagamiregion.ca) for the latest information on watershed conditions and public advisories.

**This message will be in effect until (or updated before) July 6, 2020.**
